Last week when in Bhutan, I met Pradhan, A51PN, who was very active from 1972 to 1983 when he worked in the Wireless Dept of the Bhutan government. He gave me his stack of log books to digitize and upload to LOTW, about 30,000 estimated contacts. Pradhan is now 73 and in good health and living a quiet retired life.

I will be able to answer QSL requests for anyone needing a card for A51PN. He has meticulous notes in his logs about QSLs that were returned.

BITS & PIECES -

FOR IMMEDIATE RELEASE-Malpelo DXpedition 2012
Nov. 2, 2011
Contact: bob at k4uee.com

Three members of the Malpelo 2012 team have just completed a seven day reconnaissance visit to Malpelo.

To see a short written summary of their observations and view some very revealing pictures, go to
http://hk0na.com/hk0na-reconnaissance-trip-oct-2330/

This will be a very demanding DXpedition for several reasons. The terrain is particularly difficult, near vertical at times. And in order to have a clear radio view of Asia, the Pacific region and W6/W7; it will be necessary to locate operating site(s) and antennas at the top of the mountain. This further complicates the difficulties and physical risks to the team.

Team members vary in age from 25 to 73. But under the leadership and constant urging of our team's medical doctors, K9SG and W0GJ, we have all embarked on a physical training regimen. We should all be ready for the challenges come early 2012.

Three members of the team K4UEE, N4GRN and W6IZT will travel to Colombia Nov. 5-8 for a planning meeting with team leader, Jorge HK1R and other team members. The purpose of the meeting is to review all the checklists and responsibilities for each team member. With the information gained on the recent reconnaissance visit, decisions can be finalized concerning camp/operating sites, antenna types and placement, safety measures and other critical decisions necessary to the ultimate success for the DXpedition.

One critical decision to be made concerns the duration of the operation. We have permission to stay on site for 17 days versus the 14 days now planned. We will be reviewing the DXpedition budget to determine if we can afford the extra $15,000 expense for 3 additional days.

Contributions are gratefully accepted at: www.hk0na.com/sponsors

We plan periodic press releases with information of interest. Also, watch the website for breaking news.

Thanks,
Jorge Prieto, HK1R
DXpedition leader
